

Stealth Health Provider

Dear Healthcare Provider,

Your patient/ client is forming their Healthcare Arsenal. This person sees you as a valuable resource in their healing. I encourage you to become part of a movement towards better health, and a better world. A Stealth Health provider is dedicated to sharing the best options to assist in complete healing, but also helps their people escape control of “The System.” The System is a term I use for the united forces that work against us: the food/ chemical companies, the conventional medical model, pharmaceutical companies, the media and advertising, and insurance companies. Being a member of someone’s Healthcare Arsenal means you will:

- Refer to other Stealth Health Providers in your community, town, or surrounding region, encouraging the creation of a network that exists outside of The System.
- Freely share your own health resources of people, books, websites, podcasts, etc.
- Be committed to helping your patient/ clients unravel their health mystery whether it be services or products provided by you, or by others. Assisting them is your primary goal, not monetary gain.
- Become part of the Stealth Health community, either in our closed Trimboli Insiders Facebook group, or email us at DrNancyTrimboli@gmail.com

Yours in Health,

Dr. Nancy Trimboli
